

UNDERGROUND SCIENCE CAFÉ

Dark Matter and Good Coffee: A Scientist's Life at Laboratori Nazionali del Gran Sasso

Clemens Dittmar

Max Planck Institute for Physics

Wednesday, March 13 - Underground

Underground Conference Room

11am, 2pm

Working at LNGS means switching daily between high-precision physics and the breathtaking scenery of the Italian mountains. Between underground experiments and Italian espresso, a unique research atmosphere emerges.

Underground Science Cafe talks are for all SNOLAB staff and users. If you're wondering if this talk is for you ... then it is absolutely and especially for you. Also, snacks are provided.

Share your coffee break with us and learn something amazing!
